PARENT/TEACHER CONFERENCES

Consistent communication between parents and teachers is key to students' academic success. The district adjusted the way it conducted communication between teachers and parents in 2017-18. Instead of a single designated conference day that can be difficult for working parents, our teachers will hold conference times throughout the year as needed in addition to the designated fall and spring evening conferences. Teachers or parents can make appointments before, during or after school. Conferences can be held in person, through FaceTime or a WebEx.
